

A	HDPE Chamber - 610mm diameter x 2000mm tall
B	Pedestrian Duty Cover & Frame - 450mm diameter
C	110mm Rubber Inlet Seal
D	32mm MDPE Tank Connector
E	1.25" PVC Pipework
F	Rain / Storm Water Pump with float

Additional Information:

- Position of inlet seal (C) is shown for illustration purposes only, actual position of inlet seal will be cut by customer on site relevant to drainage position requirements.
- All standard pumps supplied are single phase and require a 240V supply unless a different pump has been requested. An electrician is required to safely connect this pump to the mains.
- If you require further advice, please contact us.
